Garage Door Opener

Battery Backup Optional

WITH **ALADDIN CONNECT** INTELLIGENT CONTROL FOR YOUR OPENER

OPTIONAL  
**INTEGRATED  
LED LIGHTING**

**DC MOTOR** | SOFT START AND STOP TECHNOLOGY

## Highlights

### • Smart Garage Capabilities

Integrated Wi-Fi provides multiple benefits such as:

- » **Security** – Instantly know if someone is operating your garage door without permission.
- » **Convenience** – Open your door for family members, deliveries or service providers from anywhere with your smart device.
- » **Safety** – Have garage door automatically close at a specific time or after an elapsed time period in case it's left open.

- **Durable, reliable performance** – The strong DC motor operates most properly balanced residential sectional doors up to 10' high. All 2128 Models have an opening speed of 7.0" per second\*.

- **Optional Integrated LED Lighting** (Models 2128L, 2128BL) Optional Integrated LED lighting system provides bright, long-lasting, energy-efficient illumination designed to eliminate garage door opener remote interference.

- **Battery Backup Optional** (Models 2128B, 2128BL) – Don't get locked outside the garage when the power goes out! The optional battery unit can easily be added to your opener.
- **GenieSense™ Monitoring** – Automatic force profiling and diagnostic technology improves safety by stopping operation when significant changes occur.
- **Soft Start and Stop Control** – DC technology allows your door to begin and end its movement smoothly instead of abruptly whenever you operate it, creating less noise and less wear on the door.
- **Dependability** – The quality built into 2128 models is backed by 10 year limited motor and Limited 15-Year belt drive rail Warranties<sup>‡</sup> (5-Year chain drive rail).

THE GENIE STORY: Genie has a rich history in developing garage door openers that feature reliability, strength, safety, security, and convenience. Since 1954, Genie has produced millions of openers that serve millions of satisfied homeowners every day of every year. Shouldn't you have one in your garage? Genie — The Brand You Trust.

\* +/- 0.5" per second for sectional doors.

\*\* When compared to industry standard, 12V motors

‡ Limited non-transferable warranty. See Programming, Operation and Maintenance manual for details.

## Features and Benefits

### POWER AND CONTROL

**DC Motor Smart Technology** – The DC motor provides quiet operation as well as Soft Start and Stop control. This means the door begins and ends its travel smoothly, not abruptly, which lessens noise as well as wear and tear on the garage door.

**C-Channel Rail** – Strong rail design helps promote durability and safety. Also conceals the belt (or chain) for better appearance.

**Belt or Chain Drive** – Choose the belt drive option for quieter operation or chain drive for economical value.

### SAFETY

**Safe-T-Beam® Non-Contact Reversing System** – When objects pass through the infrared beam, the garage door automatically stops closing and reverses to open without having to make physical contact with the door.

### SECURITY

**Intellicode® Access Security System** – Prevents thieves from using unauthorized remotes to open your door by always selecting a new code from billions of combinations each time the opener is operated.

**Sure-Lock™ Control** – Allows you to lock out remote controls and wireless keypad at any time for increased security – also known as a vacation lock.

### CONVENIENCE

**Optional Integrated LED Lighting (Models 2128L, 2128BL)**

High-efficiency, integrated LED lighting is frequency tuned not to interfere with transmitter range and provides bright, aesthetically pleasing light. Integrated lighting is designed for thousands of hours of maintenance-free use.

**Auto-Seek Dual Frequency** – The opener automatically uses either 315 or 390 MHz frequency to avoid potential nearby interference, such as military base equipment, to help ensure the opener operates properly.

**Pre-Programmed Remote** – Ready to use out-of-the-box with simple steps to change the programming if so desired.

**HomeLink® and Car2U® Compatible** – Works with current and ALL previous versions of HomeLink® or Car2U®. No additional external repeater kit or compatibility bridge needed.

**Optional 6' Power Cord (Models 2128H, 2128HB)**

For high ceiling applications.

**CALIFORNIA RESIDENTS** – This opener has the option to add battery backup. As required by SB-969, all newly installed openers must have battery backup as of 7/1/19. To order this opener with battery backup, refer to Model 2128B, 2128BL, 2128HB. If needed, visit [www.geniecompany.com](http://www.geniecompany.com) or ask your Genie dealer for details.

† Limited non-transferable warranty. See Programming, Operation and Maintenance manual for details.

## Aladdin Connect® INTEGRATED WI-FI CONNECTIVITY

Remotely monitor and control your garage door from almost anywhere with your smart device. Time-based features allow you to set door to automatically close and/or notify after a set length of time; as well as schedule a specific hour and minute to close the door and/or notify when it does. Also allows for multiple individual user accounts so you can provide virtual key access for your garage door to a friend, relative, or service person for a certain time, a range of time, or permanently.

Compatible with:

Scan for complete list of Smart Home Partners

Use the Aladdin Connect app to control any combination of 20 different Genie Wi-Fi integrated garage door openers or standalone Aladdin Connect Door Control Modules.

## Convenience Options

Genie offers many convenience options to customize your garage door opening experience: wireless keypads in numerous color, remote controls and wall consoles to satisfy any situation.
